

# AIRY AMBIENCE

"This kitchen was designed around the homeowners' request for functional storage space and a spectacular window splashback. While the splashback creates a 'wow factor' thanks to the view of the greenery outside, it also allows a flood of natural light into the space, giving it a bright, airy ambience. The cabinetry surrounds the window to allow for greater efficiency and pragmatic use of available space, while the dishwashers and bins are placed on either side of the kitchen for increased efficiency during meal prep and clean-up. The walk-in pantry and study nook are important features of this kitchen; both are necessities which accommodate the busy lifestyles of the home owners and their school-aged children. The pantry and study nook fit-outs match the benchtops and cabinets of the main kitchen. Bi-fold windows were installed to allow for easy access to the alfresco area, while the benchtops were designed to extend underneath the bi-fold windows to the outside, serving as a ledge for guests to use."

*We love the glass splashback, which creates a bright and airy ambience.*

## EXPERT TIP

Bi-fold windows allow for easy access to outdoor areas situated near the kitchen.
