

*We love the DuPont Simplicity Frost benchtop.*

**EXPERT TIP**  
Horizontal lines encourage the eye to glide across the space and can incorporate flooring as well as cabinetry.

## SLEEK AND SEAMLESS

"This modern kitchen is part of a new build with an unusual layout. Our biggest challenge was to wrap the cabinets around a set of stairs and use a cavity slider door without disrupting the seamless look of the kitchen. The horizontal lines of the cabinetry and flooring draw your eye across the room, allowing you to take in the sleek space in its entirety. The area travels smoothly and harmoniously from the kitchen through to the butler's pantry and laundry. Handleless drawers complete this smooth look, while simultaneously ensuring easy functionality in the space. The large island allows for plenty of workspace and room for the family to sit together. Storage is incorporated into the space through the many cabinets and drawers, ensuring there is a place for everything."

**Designer** John Barton for Nobby Kitchens
