

# *Nobby* KITCHENS

DELIVERING THE DREAM FOR *85 years*

---

# 7 QUESTIONS YOU MUST ASK ANY *Kitchen Company*

**1 Do they offer a fixed price contract - with EVERYTHING included and guaranteed no hidden extras?**

At Nobby Kitchens, the contract you sign is the final price. No surprises, no added extras. We can include every trade you need, plumbing, electrical, tiling, plastering, installation, rangehood ducting, even lighting and wall rendering, plus so much more.

Do Nobby contracts include EVERYTHING?  Yes  No

**2 Do they supply Home Warranty Insurance (HWI) and are they eligible to provide it?**

By law, all contracts over \$20,000 must have HWI. Some companies split contracts to avoid it, which is a serious red flag. Always ask for proof of eligibility.

Does Nobby supply an official HWI certificate?  Yes  No

**3 Are all trades included in one fixed-price contract?**

Many kitchen companies only give an estimate for trades, asking you to pay them separately. This often bypasses HWI laws and leaves you exposed to extra costs. With up to 10 trades needed to complete a kitchen, this can blow out your budget.

Does Nobby include everything in one contract?  Yes  No

**4 Have they been in business longer than their warranty?**

If a company offers a 10 year warranty, can they prove they've been around longer than that? Longevity and financial stability matter.

Has Nobby been in business for over 85 years?  Yes  No

**5 Do they hold a builder's licence?**

Always check that your kitchen company has a current builder's licence and is eligible to provide HWI. You can verify this through the Department of Fair Trading. Builders Licence No. 227580C

Does Nobby hold a builders licence?  Yes  No

**6 Do they have 1000's of 5 star reviews and recent video testimonials?**

When choosing a kitchen company, make sure their reputation is backed by up-to-date 5 star reviews and genuine customer videos, not old photos, printed letters, or a trail of low star rankings.

Does Nobby have over 1000's of 5 star reviews?  Yes  No

**7 How many kitchens have they designed?**

When it comes to designing your dream kitchen, experience matters. Many architects or builders may only design a handful of kitchens each year, which can limit their knowledge of practical solutions, layouts, and the latest innovations.

Does the Nobby Design Team create 1000's of kitchens per year?  Yes  No

**If you didn't get 7 'YES' answers -
